Mod Overview & Progression

Beyond Netherite picks up exactly where vanilla Minecraft leaves off: at Netherite. The mod adds a brand-new end-game material tier — **Purpurit** — complete with its own ore generation, two new workstations, a full tool and armor set, and 19 custom advancements.

The Progression Path

Your journey through the mod follows a clear chain — each step unlocks the next:

1. Mine **Purpurit End Ore** in the End → *Raw Purpurit*
2. Crush the raw material with the **Smasher** → *Purpurit Particals*
3. Smelt the Particals with lava in the **Smelter** → **Purpurit**
4. Use the **Purpurit Template** at the smithing table to upgrade your existing Netherite gear to Purpurit gear
5. Optional: defeat the Ender Dragon in full Purpurit armor and complete all 19 advancements

In short: *Purpurit isn't a competitor to Netherite, it's the tier after it — you'll still need to craft regular Netherite gear first before refining it into Purpurit.*

Ores & World Generation

Purpurit End Ore

Purpurit ore is found **exclusively in the End** — it occasionally replaces regular end stone.

Property	Value
Location	All End biomes (main island & outer islands)
Height	Y = -64 to Y = 80
Vein size	up to 5 blocks per vein
Veins per chunk	5 attempts
Destroyed by explosions	No (survives lava/height exposure)

Without Silk Touch: drops **Raw Purpurit** (the amount scales with your tool's Fortune level, just like diamonds and other ores) **With Silk Touch:** drops the **Purpurit End Ore** block itself — this is also the requirement for the *"Ore Hoarder"* advancement.

From Raw Purpurit to Purpurit Particals — the Smasher

The **Smasher** isn't a regular crafting block — it works like an anvil: you drop it **onto Raw Purpurit items lying on the ground** (like a falling sand/gravel block), and the impact breaks the material down.

Steps: 1. Drop Raw Purpurit on the ground. 2. Place the Smasher above it so it falls (e.g. build a sand tower and remove the base, or trigger it with a piston). 3. On landing, any Raw Purpurit stack directly underneath is consumed and converted into **Purpurit Particals**.

Input	Yield
1× Raw Purpurit	4-7× Purpurit Particals (randomized, rolled individually per item in the stack)

Tip: Bigger Raw Purpurit stacks are worth it — the Smasher rolls the yield per individual item in the stack, so a stack of 10 nets you 55 Particals on average.

The Smelter Workbench

The **Smelter** is the mod's central refining station and considerably more demanding than a regular furnace.

Layout & Slots

Slot area	Count	Function
Input grid	21 slots	All must simultaneously contain at least 1 Purpurit Partical
Fuel slot	1 slot	Only accepts a Lava Bucket
Output slot	1 slot	Finished Purpurit ends up here

How it works

- The Smelter only starts processing once **every single one** of the 21 input slots contains at least one Partical **and** a Lava Bucket sits in the fuel slot.
- One cycle takes **72 ticks (3.6 seconds)**.
- On completion, **1 Partical is consumed from each** of the 21 slots, the Lava Bucket becomes an **empty bucket**, and **1× Purpurit** appears in the output slot.
- The process then repeats automatically as long as supplies and lava last.

Cost per Purpurit: 21× Purpurit Particals + 1× Lava Bucket (the bucket survives and returns empty).

Crafting recipe (3×3 crafting table):

Glazed Terracotta	Glazed Terracotta	Glazed Terracotta
Glazed Terracotta	Blast Furnace	Glazed Terracotta
Netherite Ingot	Netherite Ingot	Netherite Ingot

(any color of glazed terracotta works)

Items, Tools & Unique Weapons

The Purpurit Material at a Glance

Property	Value
Durability	2500
Mining speed (efficiency)	10.0
Attack damage bonus (material)	+4.5
Enchantability	20
Repair	with Purpurit Ingots (anvil/grindstone)
Mineable blocks	identical to Netherite tools — Purpurit doesn't unlock any <i>new</i> mineable blocks, it's purely a speed, damage & durability upgrade

Tool & Weapon Stats

Item	Attack Damage Bonus	Attack Speed
Purpurit Sword	+3.5	−2.4
Purpurit Axe	+4.5	−3.0
Purpurit Pickaxe	+1.0	−2.8
Purpurit Shovel	−1.5	−3.0
Purpurit Hoe	−4.0	0.0

(These are the raw modifier values from the material system — the final damage number shown in-game also depends on each tool type's built-in base value.)

The Purpurit Spear — the new melee weapon

The **Purpurit Spear** uses the new vanilla spear weapon type: longer reach than a sword, a **lunge/sprint attack** with bonus damage on a running approach, and the ability to **throw it**. Its combat stats were individually tuned for Beyond Netherite toward an aggressive but balanced melee weapon, noticeably above a plain Netherite Sword.

Fittingly, there's a dedicated advancement for riders: "Grand Lancer" — kill a mob with the Spear while riding a horse.

Armor Sets & Horse Armor

Protection Values per Piece

Armor piece	Armor points
Purpurit Helmet	4
Purpurit Chestplate	9
Purpurit Leggings	7
Purpurit Boots	4
Purpurit Horse Armor / Purpurit Nautilus Armor	24

Property	Value
Toughness	4.0
Knockback resistance	0.2
Durability multiplier	×40
Enchantability	20
Repair	with Purpurit Ingots

Purpurit Horse Armor & Purpurit Nautilus Armor

Both share the material’s strong protection value (24 armor points) and work just like their Netherite counterparts — simply equip them on a horse or nautilus. Both are tied to their own advancements (*“The Noble Steed”* / *“Ocean’s Warden”*).

Special Armor Advancements

A full set of Purpurit armor is more than just looks:

- **Purpurit Power / Untouchable** — surviving a **charged Creeper explosion** while wearing full Purpurit armor automatically unlocks its own advancement.
- **Complete Protection** — put **Protection IV** on **all four** armor pieces to earn this advancement (checked automatically in the background, no trigger item needed).

Upgrade Templates

The **Purpurit Template** is the key to upgrading your existing Netherite gear to Purpurit.

Ways to obtain a Template

Source	Chance / Amount
Crafting (see below)	guaranteed, but resource-intensive
Defeating the Ender Dragon	guaranteed 1× as a bonus drop
End City treasure chest	roughly 35% chance for 1-3×

Crafting recipe (3×3):

Purpurit Particals	End Stone	Purpurit Particals
Purpurit Particals	Netherite Ingot	Purpurit Particals
Purpurit Particals	Purpurit Particals	Purpurit Particals

→ uses **7× Purpurit Particals + 1× Netherite Ingot + 1× End Stone**

Using it at the Smithing Table

Just like the vanilla Netherite upgrade, use the **Smithing Table**:

1. **Template** slot: Purpurit Template
2. **Base** slot: the finished Netherite item (e.g. Netherite Sword)
3. **Addition** slot: 1× Purpurit

Result: the Purpurit version of that item. This works for **every** tool, weapon, armor piece, as well as Horse Armor and Nautilus Armor.

Important: Just like vanilla smithing templates, the Template is **consumed** on every use — you'll need a separate Template for each piece of gear.

Advancements Guide

There are **19 advancements** in total (plus the root advancement), structured as a clear progression tree. Check them off one by one:

Main Path (required progression)

- ☐ **Start of the End** — Obtain a Raw Purpurit
- ☐ **Ore Hoarder** — Mine Purpurit End Ore with Silk Touch
- ☐ **Let's Smash** — Craft a Smasher
- ☐ **What should I do with this?** — Obtain Purpurit Particals by smashing Raw Purpurit
- ☐ **The next Generation of Smelting** — Craft a Smelter
- ☐ **The Refined Power** — Smelt Particals + Lava in the Smelter into Purpurit
- ☐ **Mass Production** — Collect a full stack (64) of Purpurit

Equipment Branch (from "The Refined Power")

- ☐ **Ultimate Arsenal** — Own every Purpurit tool (Sword, Axe, Pickaxe, Shovel, Hoe, Spear)
- ☐ **Dedicated Farmer** — Obtain a Purpurit Hoe
- ☐ **The Noble Steed** — Equip a horse with Purpurit Horse Armor
- ☐ **Ocean's Warden** — Equip a nautilus with Purpurit Nautilus Armor
- ☐ **Purpurit Paragon** — Wear a complete set of Purpurit armor

Endgame Branch (from "Purpurit Paragon")

- ☐ **Oops...** — Break a Purpurit tool from wear
- ☐ **Purpurit Power** — Deal at least 30 damage to a mob in one hit with the Purpurit Sword
- ☐ **Grand Lancer** — Kill a mob with the Spear while riding a horse
- ☐ **Untouchable** — Survive a charged Creeper explosion in full Purpurit armor
- ☐ **How Did We Get Here: End Edition? (Challenge)** — Defeat the Ender Dragon while wearing a full set of Purpurit armor
- ☐ **End Explorer** — Enter an End City in full Purpurit armor
- ☐ **Complete Protection** — Wear a full set of Purpurit armor with Protection IV on every piece

Complete Crafting & Smelting Index

Base Material

Recipe	Ingredients	Result
Purpurit → Purpurit Block	3×3 Purpurit	1× Block of Purpurit
Purpurit Block → Purpurit	1× Block of Purpurit (shapeless)	9× Purpurit
Purpurit Particals → Purpurit	in the Smelter: 21× Purpurit Particals + 1× Lava Bucket	1× Purpurit
Raw Purpurit → Purpurit Particals	at the Smasher: 1× Raw Purpurit	4-7× Purpurit Particals

Workstations

Recipe	Ingredients
Smasher	2× Echo Shard, 2× Resin Brick, 1× Nether Star, 3× Netherite Ingot
Smelter	6× Glazed Terracotta (any color), 1× Blast Furnace, 3× Netherite Ingot

Upgrade Template

Recipe	Ingredients	Result
Purpurit Template	7× Purpurit Particals, 1× Netherite Ingot, 1× End Stone	1× Purpurit Template

Smithing Upgrades (each: Template + Netherite item + 1× Purpurit)

Netherite base	Result
Netherite Sword	Purpurit Sword
Netherite Axe	Purpurit Axe
Netherite Pickaxe	Purpurit Pickaxe
Netherite Shovel	Purpurit Shovel
Netherite Hoe	Purpurit Hoe
Netherite Spear	Purpurit Spear
Netherite Helmet	Purpurit Helmet
Netherite Chestplate	Purpurit Chestplate
Netherite Leggings	Purpurit Leggings
Netherite Boots	Purpurit Boots
Netherite Horse Armor	Purpurit Horse Armor
Netherite Nautilus Armor	Purpurit Nautilus Armor

Good luck on your journey beyond Netherite — see you in the End! 💖
